We give you our PRODUCT BOOK – a catalogue which is a summary of our many years of experience and hard work. It is thanks to the “Know How” that we have the highest quality products and a team of Educators, who in less than 3 years have won over 600 medals at the Worldwide Championships: 6 gold ones in Las Vegas, two at the European Championship 2016 and most recently two at the World Championships 2017 or astronomical 34 medals at Naillympia Texas 2018.

Thanks to the fact that our Educators take an active part in testing and evaluating, every area of product technology we develop, we know that we are putting the best professional products into your hands. We carefully select ingredients and formulas, guaranteeing the highest quality product. We design our beautiful packaging with modern designs so that our products are comfortable to use but also visually effective and pleasing to the eye.

We are the leader in creating trends that allow us to boast our unique, exclusive to Indigo products like Mermaid Effect, Metalmanix®, MetalManix Chameleon® and Pixel Effect®.

Every day there are hundreds on our team who work to meet your requirements and are eager to help you pursue your passion.

Thank you for being with us.

GEL POLISHES

Why do Stylists all over the globe love Indigo gel polishes?

Because:
• they have the most beautiful and extensive range of colors,
• they do not flood the cuticles,
• they do not chip,
• they have amazing bonding properties,
• they are strongly pigmented and provide great coverage,
• the careful selection ensures that only the safest and best ingredients are used,
• they have a semi-thick consistency,
• they have a super quick curing time (20 seconds),
• they are great for creating all different types of designs,
• they are perfect for use on nail effects like Mermaid Effect, Holo and Metal Manix.

Did you know that Vogue Magazine called Indigo ‘an expert in the field of colors’!? Discover a fascinating world of colors! If you are looking for inspiration, check out our Instagram @indigonails and see the amazing works of art created by our talented Stylists.

Indigo offer includes Tyree types of Gel Polish:
Gel Polish – amazing colors, more than 200 hues to choose from, great pigmentation, two layers give the 100% coverage
Effect Gel Polish – transparent mist that we put on the base of a chosen color, giving the multicolor glimmer
Glitter Gel Polish – Glitter polish with the brilliant coverage – there is no need to put them on other color

curing time: UV 2 min. Multi Led 30 sec.
volume: 7 ml

Celebrities and Influencers love Indigo Gel Polishes and have created their own signature collections in a range of colors and palettes. Discover amazing ranges created by Natalia Siwiec, Sara Boruc and Agnieszka Popielewicz-Hyży.
**COLORS - WE ARE THE COLORS**

* This color needs more time of curing than other colors in We Are The Colors collection. It is a common situation in case of yellow hues. The time of curing the Hedonist should be adjusted to the power and run of the lamp - from 30 to 60 seconds. You should work with thin layers.

- 1 Set of cuticle sticks (10 pcs.)
- 1 Indigo branded towel

**EFFECTS:**
- 2 Mirror dusts
- 2 Metal Manix dusts
- 1 Mermaid Effect®
- 1 Application stick

The ideal set, full of products that will set the foundation for your new adventure! This stylish box includes wonderful scented body and hand cosmetics from Indigo.
GEL POLISH BASE COATS
Indigo gel polish base coats are known for bonding seamlessly to the natural nail plate. Our range contains many products with versatile features which can be matched to the type of nail plate and individual preference of the Client. This is the best way for each Client to enjoy a lasting manicure.

Indigo gel polish base coats should be cured in an (Multi) LED lamp for 30-60 seconds or 2 minutes in a UV lamp.

**PROTEIN TREATMENT**

Indigo Protein treatment is one of the best products you can suggest to your Client. Not only does it protect the manicure, but it also makes it last longer – it’s the perfect solution for weak and soft nail plates. Protein Base creates a strong but elastic surface and thanks to its jojoba proteins it interacts well with the natural nail plate and creates a strong bond. After bonding to the structure of the natural nail plate, any imperfections on the nail plate are filled, the rough areas smoothed out and the nails will grow longer and stronger. If your client doesn’t see herself wearing traditional nail enhancements like gel or acrylic, offer her the Indigo Protein Treatment! The base coat allows you to build the apex and can make the nail longer by up to 3mm, enabling you to fix a broken nail. Simple!

Protein Base should be applied like a standard base coat. If you want to build up the apex, the first coat should be applied very thinly. Once cured in the lamp apply a second layer, building a coat, which will allow you to shape the perfect apex. Next, take your preferred file and smooth out the surface and apply gel polish – if preferred. You can also leave the nails with nothing only the base coat because the product looks just as shiny, sleek and sophisticated on its own.
**gel polish base coats**

**PROTEIN BASE REMOVABLE**

- Contains jojoba proteins
- Semi-thick consistency
- Hard but elastic at the same time
- Smoothes out the imperfections on the nail plate
- The ability to build up the apex
- It can make the nail longer up to 3 mm
- Has the ability repair a broken nail
- So strong that it can be used as a base coat in gel manicure
- Does not flood the cuticles
- Can be worn on its own

CONSISTENCY: semi-thick
DISPERSION LAYER: yes
CURING: Dual LED: 30 seconds | UV: 2 minutes
DISSOLVES: yes

*volume: 7 ml, 13 ml*

---

**GEL POLISH REMOVABLE BASE**

- Traditional gel polish base coat designed specifically for normal nails
- It is flexible – works well on the natural nail plate
- It has a very sticky dispersive layer which ensures the easy and even distribution and adherence of gel polish color to the nail plate

CONSISTENCY: thin
DISPERSION LAYER: yes
CURING: Dual LED: 30 seconds | UV: 2 minutes
DISSOLVES: yes

*volume: 7 ml, 13 ml*
GEL POLISH LIQUID REMOVABLE BASE

- Gel Polish base coat designed to cater for a problematic nail plate, recommended to clients with hyperhidrosis and hormonal imbalance
- Very efficient – all you need to do is to place a drop onto the nail plate
- It has a thin consistency which gets absorbed into the grooves of the nail plate and bonds with it
- It doesn’t make the nail plate thicker – it creates a very thin, natural manicure.

Tip
Base leaves a strong dispersive layer which needs to be gently rubbed off with a dry brush for gel or with a cotton swab before applying the color.

CONSISTENCY: thin
DISPERSION LAYER: yes
CURING: Dual LED: 30 seconds | UV: 2 minutes
DISSOLVES: yes

volume: 7 ml, 13 ml

GEL POLISH ULTRA STRONG BASE

- Gel polish base coat dedicated to soft and damaged nails
- It works well on problematic nail plates creating a durable “shield” on the nails surface
- It doesn’t dissolve when Remover is applied, so it protects the natural nail plate against the direct contact of acetone and becomes a durable shield for the client’s next manicure.

Tip
We recommend leaving the original layer of base coat upon the next application. All you need to do is lightly buff the nail plate and fill in the base area of the nail where there is visible new growth.

CONSISTENCY: thin
DISPERSION LAYER: yes
CURING: Dual LED: 30 seconds | UV: 2 minutes
DISSOLVES: no

volume: 7 ml, 13 ml
GEL POLISH TOP COATS
Indigo gel polish top coats have many different features – you'll easily find the right product for the perfect manicure you want to create. Every top coat:

- has a beautiful shine finish,
- makes the manicure last longer,
- highlights the color depth,
- protects the manicure from scratches, abrasion and discoloration,
- doesn’t flood the cuticles,
- protects the manicure created with nail effects (top coats with dispersive layer).

**Tip**

*Choose the right curing time by estimating the strength of your nail lamp. If the top coat isn’t cured long enough, it will turn matte and if it is cured too long, it will become yellow.*

**TOP COATS WITH DISPERSE LAYER**

*Tip*

*After curing the top coat wait before wiping the dispersive layer for about 30 seconds - if the top coat doesn’t have time to cool down it will become dull with time.*

**top coats with dispersive layer**

**REMOVABLE TOP COAT**

- Traditional, flexible gel polish top coat
- Doesn't change the color thanks to the reduced amount of UV filters
- Thin consistency allows the smooth application to create a nice line of light

**CONSISTENCY:** thin
**DISPERSION LAYER:** yes
**CURING:** Dual LED: 30 seconds | UV: 2 minutes
**DISSOLVES:** yes

**volume:** 7 ml, 13 ml
top coats with dispersive layer

**TOP GLOSS 3D**

- Spectacular shine
- Dedicated to experienced Stylists
- Contains UV filters
- Thin consistency allows the smooth application to create a nice line of light
- Recommended for simple, one-color manicures

*A wonderful choice! This is the shiny top which the Indigo Instructor Madelene Wolf worked with when she achieved the World Champion 2017 title.*

*Tip*

*Wipe the dispersion layer before application.*

CONSISTENCY: thin
DISPERSION LAYER: yes
CURING: Dual LED: 30 seconds | UV: 2 minutes
DISSOLVES: yes

*volume: 7 ml, 13 ml*

---

*top coats with dispersive layer*

**PRO WHITE REMOVABLE TOP**

- Gel Polish top coat created for Babyboomer and manicures created with pastel and nude shades
- Contains a lot of UV filters
- Perfect for a classic French manicure
- Thin consistency allows for a smooth application to create a nice line of light

CONSISTENCY: thin
DISPERSION LAYER: yes
CURING: Dual LED: 30 seconds | UV: 2 minutes
DISSOLVES: yes

*volume: 7 ml, 13 ml*
NO DISPERSION TOPS

DRY TOP SUPER SHINE

- Hard gel polish top coat without the dispersive layer
- Created for nail effects – creates a surface perfect for application of the nail art powders such as Holo Manix, GlassMe®, Metal Manix®, Chameleon or Multichrome
- Doesn’t contain UV filters
- We do not recommend it for weak or soft nails

Tip:
To achieve the beautiful gloss, apply a thin layer of the top and cure it for 30 seconds.
Remember! Dry top should be applied on the nails strengthen by e.g. the protein or keratin base. Otherwise it may start to crack.

CONSISTENCY: thin
DISPERSION LAYER: no
CURING: Dual LED: 30 seconds | UV: 2 minutes
DISSOLVES: no

volume: 7 ml, 13 ml
GEL METHOD
GEL BASE COATS
Indigo gel base coats enhance the cohesion properties of the gel layers to their maximum, making the manicure very durable. They eliminate the problem of air pockets or bubbles. To choose the right base coat you need to evaluate the natural nail plate.

gel method - gel base coat

PERFECT BASE

• Hard gel base coat
• Dedicated to problematic nail plates, recommended in case of hyperhidrosis of the hands and hormonal imbalance
• Very efficient – you will only need to apply a very small amount on the nail
• Available in a jar form or in a bottle with a brush

Tip
Base coat leaves a very sticky dispersive layer which needs to be taken off with a dry brush for gel application or with a swab prior to color application.

CONSISTENCY: very thin
DISPERSION LAYER: yes
CURING: Dual LED: 60 seconds | UV: 3 minutes
DISSOLVES: no

volume: 5 ml | 15 ml | 30 ml
KERATIN TREATMENT

If your client has damaged nail plates but still would like to wear gel nails the perfect solution is Indigo Keratin Treatment. Keratin Base applied on short nails is the perfect base for a gel manicure. It can be applied as a standalone product to achieve stronger nail plates but at the same time a natural, aesthetic, milky finish on the nail.

Tip
Indigo Keratin Treatment can be used under Gel Polish.

---

gel method - gel base coat

KERATIN BASE

- This base coat is designed for damaged nails
- Contains particles of keratin which are absorbed into the structure of the nail plate and fill the areas of the nail where there is a deficiency of keratin
- Flexible – cooperates with natural nail plate
- Works with any type of gel and gel polish
- Apply two coats of the base coat and a top coat to create the natural effect of milky nails

Attention!
Cured base coat can contain granules – these are particles of keratin. To get rid of them all you need to do is wipe the surface with Cleaner and smooth out with a file and then wipe it with Cleaner again.

CONSISTENCY: thin
DISPERSION LAYER: yes
CURING: Dual LED: 30 seconds | UV: 2 minutes

volume: 5 ml | 15 ml
HARD GEL METHOD - BUILDER GELS

Builder gels available in the Indigo Nails range have a honey-like consistency (from semi-thick to very thick). They are transparent and self-leveling. They can be used to cover the entire nail plate and to enhance the nails. They create a hard structure and allow pinching for the perfect C-curve. These gels were used by The World Champion, Madalene Wolf, in winning her titles.

**hard gel method - builder gel**

**ROSE PINK**

- the only one-phase hard gel
- the most thin among the self-leveling building herd gels
- Transparent pink, to finish the French manicure
- to be harden on the natural nail plate
- perfect for infills
- a mixture of base, building gel and the glossy top all in one
- dedicated for Fast work

CONSISTENCY: medium thick
DISPERSION: YES
CURING: Multi Led: 30 seconds | UV: 2-3 minutes
POLYMERISATION: 4-6 seconds
SELF-LEVELING: yes

**volume**: 5 ml | 15 ml | 30 ml | 50 ml

**hard gel method - builder gel**

**PERFECT CLEAR**

- Semi-thick builder gel
- Speeds up work
- Doesn’t contain UV filters

CONSISTENCY: thick
DISPERSION LAYER: yes
CURING: Dual LED: 30 seconds | UV: 2 minutes
SELF-LEVELING: yes

**volume**: 5 ml | 15 ml | 30 ml | 50 ml

* the polymerization time is dependent on the type of lamp and the layer thickness
hard gel method - builder gel

**BUILDER CLEAR**

- Classic, thick builder gel
- Hard and strong
- Used for creating long and very long nails
- Doesn’t contain UV filters – not recommended for French manicure

CONSISTENCY: thick  
DISPERSION LAYER: yes  
CURING: Dual LED: 60 seconds | UV: 2-3 minutes  
SELF-LEVELING: yes

**volume**: 5 ml | 15 ml | 30 ml | 50 ml

---

hard gel method - builder gel

**TAKE YOUR TIME BUILDER**

- Very thick  
- Crystal clear  
- Can be used to create a very thin structure  
- Chosen by Stylists during Championships

Tip  
The intense polymerization can create a strong burning sensation so apply the product in a thin layer

CONSISTENCY: very thick  
DISPERSION LAYER: yes  
CURING: Dual LED: 30 - 60 seconds | UV: 3 minutes  
SELF-LEVELING: no

**volume**: 5 ml | 15 ml | 30 ml | 50 ml

* the polymerization time is dependent on the type of lamp and the layer thickness
HARD GEL METHOD - THE BUILDING GELS

Easy Shape line of builder gels available in the Indigo Nails range have a similar consistency to ‘jelly’. They are hard and have different levels of pigmentation. They allow you to perfect the apex and the consistency provides a perfect product control. They do not require mixing. They cure for 30-60 seconds in a Multi LED lamp and 2 minutes in a UV lamp.

**EASY SHAPE ROSY**
- New generation of clear gel
- Transparent - peachy shade
- The most popular choice among Stylists
- Slightly levels itself
- Can be used to build structure, create an apex and a C-curve
- Easy to file

CONSISTENCY: thick
DISPERSION LAYER: yes
CURING: Dual LED: 30 - 60 seconds | UV: 3 minutes
SELF-LEVELING: slightly

volume: 5 ml | 15 ml | 30 ml | 50 ml

---

**EASY SHAPE MILKY PINK**
- Milky-pink shade
- 50% coverage
- Pliable
- Perfect for Babyboomer/Ombré
- Can be used as a standalone product – creates a subtle, milky finish

CONSISTENCY: thick
DISPERSION LAYER: yes
CURING: Dual LED: 30 seconds | UV: 2 minutes
SELF-LEVELING: slightly

volume: 5 ml | 15 ml | 30 ml | 50 ml

* the polymerization time is dependent on the type of lamp and the layer thickness
**EASY SHAPE LIGHT ROSE**

- 70% coverage
- Flesh-toned with a hint of pink
- Speeds up work
- Perfect as a base for a color gel
- Very pliable
- Doesn’t flood the cuticles
- Easy to file

CONSISTENCY: thick  
DISPERSION LAYER: yes  
CURING: Dual LED: 30 - 60 seconds | UV: 3 minutes  
SELF-LEVELING: slightly

*volume: 5 ml | 15 ml | 30 ml | 50 ml*

---

**EASY SHAPE COVER**

- Revolutionary combination of a camouflage and builder gel
- The thickest gel in the Easy Shape Line
- Can be used to create an entire nail
- Perfect for painted and constructed French
- Perfect as a base for color

*Tip*
Taking into account the strong pigmentation, we suggest making the skeleton out of TAKE YOUR TIME BUILDER.

A wonderful choice! This is the gel which the Indigo Instructor Madeleine Wolf worked with when she achieved the World Champion 2017 title.

CONSISTENCY: very thick  
DISPERSION LAYER: yes  
CURING: Dual LED: 30 seconds | UV: 2 minutes  
SELF-LEVELING: no

*volume: 5 ml | 15 ml | 30 ml | 50 ml*

*the polymerization time is dependent on the type of lamp and the layer thickness*
CAMOUFLAGE GELS

Classic Indigo camouflage gels have a nice honey-like consistency and a broad color spectrum. Stylists use them to elongate the nail bed. These gels are highly pigmented (80-90%) and do not leave streaks. They need to be covered with the transparent builder gel.

*Tip*
*Remember to stir the product well prior to application.*

---

**hard gel method – camouflage**

**COVER NO.1**

- Universal camouflage

*Tip*
*Apply this cover in thin layers.*

**volume:** 5 ml | 15 ml | 30 ml | 50 ml
WHITE GEL

**hard gel method – white gel**

**IGLOO WHITE CREAM**

- Snow-white
- Foam-like consistency
- 100% coverage
- Hard
- For use when constructing a French manicure
- Chosen by the Indigo Team as a default white gel for Nail Championships

A wonderful choice! This is the gel which the Indigo Instructor Madeleine Wolf worked with when she achieved the World Champion 2017 title.

**CONSISTENCY:** thick
**DISPERSION LAYER:** yes
**CURING:** Dual LED: 30 seconds | UV: 2 minutes
**SELF-LEVELING:** no

**volume:** 5 ml | 15 ml | 30 ml | 50 ml

---

**hard gel method – white gel**

**X WHITE BRUSH**

- Thin
- Creamy white shade
- No dispersion layer
- Designed for use on a constructed nail
- For painting the French tip
- Perfect for Nail Art

**CONSISTENCY:** thin
**DISPERSION LAYER:** no
**CURING:** Dual LED: 60 seconds | UV: 3 minutes
**SELF-LEVELING:** yes

**volume:** 5 ml | 15 ml
**SHINING GELS**

Indigo shining gels have a lot of different features – you’ll easily pick the one that fits your needs. Each one of them:
- create a beautiful shiny finish
- make the manicure last longer
- highlight the color depth
- protect the manicure from abrasion, scratches and discoloration
- doesn’t spill onto the cuticles

Every Indigo shining gel needs to be cured for 30-60 seconds in a (Multi) LED lamp or 2-3 minutes in a UV lamp.

**Tip**
Wait for a few seconds after curing the gel before wiping the dispersive layer and applying the oil.

---

**hard gel method – glossy gel**

**BASE & TOP COAT**

- Used as a base coat for gel and acrylic
- Smoothes out the surface of gel nails and prepares them for the application of color
- Contains UV factors
- Creates an amazing, glossy finish if used as a top coat

**Attention!**
This gel contains UV filters which can add cooler tones to dark colors.

CONSISTENCY: very thin
DISPERSION LAYER: yes
CURING: Dual LED: 30-60 seconds | UV: 2-3 minutes
SELFLEVELING: yes

**volume:** 5 ml | 15 ml

• Creates a delicate satin effect
• Requires only a thin coat
• Dedicated for the hard gel and acrylic stylizations
  and for the nails hardened with the use of protein
  or keratin base

Tip
Remember to shake the bottle well before using!

CONSISTENCY: thin
DISPERSION LAYER: yes
CURING: Dual LED: 60 seconds | UV: 3 minutes
SELF-LEVELING: yes

volume: 5 ml | 15 ml
COLOR GELS

Why do the Stylists from all over the world love color gels by Indigo?
Because:
• they are highly pigmented,
• they provide great coverage,
• they do not flood the cuticles,
• they work well with the natural nail plate,
• the range contains more than 100 unique shades,
• they are perfect for designs and ombré,
• they are easy to use,
• they have a creamy consistency,
• dedicated for the hard gel and acrylic stylizations and for the nails hardened with the use of protein or keratin base.

Tip
The neon shades of gels should be applied on the white base to achieve the most vibrant effect.

CONSISTENCY: thin

NAIL ART GELS

Indigo gels for nail art have a thick consistency and provide great coverage. They can be combined with other colors. Within years of work the Indigo Art Team has created this wonderful gel technology - which in the combination with the amazing talent allowed Anna Faber to take home the World Championship in 3D Nail Art.

---

hard gel method

NAIL ART

- Contains Easy Shape formula
- Inspired by the consistency of oil paint
- Thick, honey-like consistency (except White Paste, which is extremely thick)
- High opacity – can cover even dark shades
- Has a dispersive layer
- Perfect for structural and raised designs or ombré (even with black)
- Available in a jar

Tip

For black ombré we recommend using a Nail Art gel – they are very well pigmented, and allow you to create a perfect transition from light to dark.

CONSISTENCY: thick
CURING: Dual LED: 30-60 seconds | UV: 2-3 minutes
SELF-LEVELING: yes

volume: 8 ml

COLOR ACRYLICS

Indigo color acrylic powders are very fine, pliable and pigmented. They allow for the most spectacular and precise nail art. They come in perfect shades, work great with Ombré and timeless Sugar Effect. Our clients love them for their amazing colors.

volume: check on www.indigo-nails.com
**ACRYLIC PAINTS**

Richly pigmented Indigo acrylic paints will allow you to make your dream salon nail designs. The paints will impress with excellent opaque coverage with the first thin coat. They are perfect for painting precise lines, filigree designs, shading and creating a shade/light effect. These paints will prove themselves when they are used for One Stroke, Zhostovo or Folk Art techniques. All of the colors blend and mix beautifully together, creating new, unique shades - thanks to this, Nail Art is a pleasure!

The paint comes in a bottle - it does not dry out and stands the test of time.

SUBSIDIARY PRODUCTS

**liquid preparations**

**CUTICLE REMOVER**

A gentle product for softening the cuticles in a gel form. It is efficient in softening dry and hardened cuticles, which makes it easier to remove them. Perfect for a bio-manicure. The product comes in a handy bottle with a brush.

*Tip*

*Apply a thick layer of the product. Wait for 2 to 3 minutes before removing the cuticles.*

*volume: 10 ml*

---

**LANOLINE SKIN CARE REMOVER**

A liquid for removing a gel polish manicure – very efficient and at the same time delicate on the skin. It completely dissolves Indigo gel polishes and makes the removing process a lot quicker.

*volume: 250 | 500 ml*

---

**CLEANER WIPE OFF**

An effective product for removing the dispersive layer. Perfect for wiping the top coat. It quickly removes the sticky residue, it doesn't mattify the products and prepares the surface for designs and application of the decorations. Irreplaceable in creating designs using Sugar Effect.

*volume: 500 ml*

---

**NAIL POLISH REMOVER**

Acetone-free nail polish remover is an effective product for removing nail polish and delicate on the nails and skin. Available in two pleasant scents.

*volume: 500 ml*

*scents: Seventh Heaven | Coconut*
liquid preparations

**CLEANER SHEA SUPER SHINE EFFECT**

This 2 in 1 product, loved by every Stylist, it is a combination of Cleaner and shea butter. It removes the sticky dispersive layer and creates a spectacular shine. Thanks to nourishing ingredients it speeds up the manicure process and eliminates the need for cuticle oil. The product is scented with our Seventh Heaven fragrance.

**Tip**

*After curing the last layer of the manicure wait for around 20 seconds before you use Cleaner Shea Super Shine Effect.*

volume: 250 ml | 500 ml

---

**liquid preparations**

**CLEANER**

An irreplaceable product for creating gel, acrylic or gel polish manicure. Used for dehydrating the nail plate before the primer. This high-quality product guarantees that the applied products will bond well to the nail plate.

volume: 5 ml | 15 ml | 250 ml | 500 ml

---

**liquid preparations**

**ACID FREE PRIMER**

Acid free primer designed for use on weak and damaged nails. It doesn't sting and doesn't irritate the cuticles. It doesn't evaporate, instead it leaves a sticky residue which works like a double-sided tape – it bonds the nail plate with acrylic, gel and gel polish products. Should be used after the Cleaner.

volume: 5 ml | 15 ml

---

**liquid preparations**

**ACID PRIMER**

A very strong and efficient product which enhances the cohesion properties of acrylic and gel products to the natural nail plate. Dedicated to problematic nail plates, recommended in case of the hyperhidrosis and hormonal imbalance. You only need to apply a tiny amount and wait until the product evaporates.

volume: 5 ml | 15 ml
liquid preparations

**FOIL GLUE**

A glue for transfer foil for gel, acrylic and gel polish manicure. An excellent product for creating art designs. A wide, handy brush ensures an easy application. The moment the applied product changes color from purple to transparent is the moment you can press the transfer foil.

*volume:* 5 ml

---

**NAIL GLUE**

A very strong glue for rhinestones, ornaments and tips. It dries quickly, bonds strongly and keeps any added gems firmly on the nail until the next visit to the salon.

*volume:* 7.5 ml

---

**BRUSH CLEANER**

A product for cleaning and taking care of the brushes, extending their longevity. It successfully dissolves the impurities and dry acrylic. The gentle formula makes the bristle springy, preserves its original shape and makes it last longer.

*volume:* 150 ml
NAIL POLISHES
NAIL POLISHES

Indigo nail polishes have a large fan base among the women who prefer the traditional manicure because Indigo nail polishes:

• have the most beautiful colors,
• dry fast,
• are flexible,
• are durable,
• are highly pigmented,
• come in a huge variety of colors,
• work well on the natural nail plate,
• have a creamy consistency,
• do not chip,
• have a shiny finish,
• do not contain formaldehyde,
• nail polishes based on the vinyl resin.

---

NAIL ART EFFECTS

In Indigo Nail’s range, you will find nail art effects which can be applied onto the dispersive layer and those that need to be applied onto products without the dispersive layer.

1. THE NAIL ART EFFECTS THAT SHOULD BE APPLIED ONTO PRODUCTS WITH THE DISPERSE LAYER (GEL POLISH, SUGAR EFFECT, PAINT GEL, REMOVABLE TOP COAT):

___

**MERMAID EFFECT®**

A bestselling nail art effect and Indigo original, which has won the hearts of women across the world. It is quick and easy to apply. It can change a regular gel polish manicure into a unique, sparkling nail design. Mermaid Effect is available in 12 shades – from the subtle pastels to the vibrant neon shades. All can be applied onto a smooth surface or as a frost effect. It’s worth to test the Mermaid Effect on different colors because each time the result will be slightly different.

Attention!
The original Mermaid Effect® available only at Indigo.

___

**COLORS:**

![Image of nail polish colors]
PIXEL EFFECT

Amazing particles which transform a manicure into a beautiful sequin nail design. They transform each color into different but always unique effects which will draw everyone’s attention. Pixels are available in eight colors, among them there are five juicy neon shades. The Pixels can be applied onto a smooth surface or as a sparkling frost. The perfect idea for an amazing manicure with a spectacular shine.

COLORS:

![Pixel Colors](image)

EFEKT HOLO

Holo Effect is a nail art effect which shines with every color of the rainbow. It creates an extravagant manicure. This nail effect has taken the hearts of women all over the world by storm because the transformation is dramatic and the nails become a spectacular addition to any outfit. Holo Effect comes in fourteen different shades and each one of them creates a hypnotizing nail design.

COLORS:

![Holo Colors](image)
**METAL MANIX®**

Original Indigo metal effect creates a spectacular metallic shine on the nails. This is a great idea for a manicure which is marvelous and simple at the same time. The metal effects create shine with tiny visible particles. Metal Manix® comes in 6 amazing shades – each of them will allow creating a very quick stylization worth the biggest stars.

Dedicated for the Sugar Effect or Paint Gel.

**COLORS:**

SILVER  LIGHT GOLD  24 KARATY  RUSSIAN GOLD  PINK GOLD  TIFFANY
2. NAIL EFFECTS APPLIED ONTO PRODUCTS WITHOUT THE DISPERSIVE LAYER (DRY TOP, SHINE ONE, ARTE BRILLANTE, UV MOUSSE GEL):

---

**METAL MANIX® MULTI CHROME**

A fine pigment which will enable you to create an amazing chrome effect on nails in a matter of seconds. Thanks to a transparent structure it is possible to create a perfect, mirror surface on any color you can think of. The effect is very durable and easy to apply. All you need to do is to rub it into a product without a dispersive layer to create an amazing effect of mirror nails. It’s an easy way to create a marvelous manicure.

*Tip*

*The mirror effects should be protected by two thin layers of the dispersive top.*

---

**METAL MANIX® CHAMELEON**

An amazing fine pigment which creates a metallic, color-shifting surface. Once it’s applied to a black base color, it produces a phenomenal chameleon effect. It can produce a number of shades with an amazing depth, depending on the intensity and the angle which the light hits the surface. Metal Manix Chameleon is available in 5 amazing versions, each one of them gives your finished manicure a different dimension and appearance.

*Tip*

*The mirror effects should be protected by two thin layers of the dispersive top.*

---

**COLORS:**

![Alien](image1.png)  ![Infinity](image2.png)  ![Supernova](image3.png)  ![Blue Devil](image4.png)  ![Butterfly](image5.png)
**HOLO MANIX**

A fine unique nail pigment which creates a smooth, holographic surface. Thanks to a semi-transparent structure you can create the effect on any color in the extensive range from Indigo. The pigment is easy to use and the rainbow mirror surface creates a long-lasting impression.

*Tip*
The mirror effects should be protected by two thin layers of the dispersive top.

**GLASSME®**

A very fine powder which creates an opalescent effect once applied on the nail. It creates a beautiful, smooth surface that doesn’t overshadow the base color. GlassMe® will enchant you, not only with its beautiful shine but also with its easy application. The opalescent surface looks great especially on pastel shades of gel polish but can be matched with any color.

*Tip*
The mirror effects should be protected by two thin layers of the dispersive top.

**COLORS:**

- GlassMe Volcano
- GlassMe Rainbow
**GLAMMER**

A very fine powder in two fantastic colors: gold and silver. It produces a subtle but distinctive finish. Once applied, it creates a smooth surface with a pearly shine. It turns nails painted with pastel colors into a subtle manicure but on the darker colors the effect is more visible.

**Tip**
The mirror effects should be protected by two thin layers of the dispersive top.

**COLORS:**

- Glammer Gold
- Glammer Silver

---

**SNOW EFFECT**

The incisive flecks that allow you to create amazing 'frost' nails in classic time less hues- crystal white, elegant black and deep red. It's a great idea for the breathtaking manicure for your 'big time out'. The shimmery flecks go amazingly well with night gowns and incisive jewelry.

**COLORS:**

- White Snow
- Black Snow
- Black Snow XL
The powders in 11 incisive, energetic, deep colors, thanks to which we can create the endless number of smoky styling. They look good on their own and in a combination with different colors. Thanks to the Smoke Powder you can show your artistic expression. Get carried away by the imagination!

**DEVICES**

**36 W BOX MULTI LED / UV LAMP INDIGO BOX**

The reliable lamp with the latest Dual LED technology. 18 LEDs emit a white light which is harmless to the skin and will perfectly cure every Indigo gel and gel polish product, which guarantees the manicure will last. The lamp has four timing settings: 30, 60 and 90 seconds and the additional SOFT setting. Turning it on will cause the lamp to gradually raise the intensity of the light which is perfect for curing builder gels. Thanks to the double display on either side of the device it can be controlled by both the Stylist and the Client. The lamp is also equipped with the motion sensor which activates the light once the hand is inside. A removable, magnetic tray makes the lamp perfect for both pedicure and manicure and keeping the lamp clean. The small size and minimalistic design makes this lamp match any salon interior.

Size: 205 x 176 x 84 mm  
Weight: 1000 g  
Power: 36W  
Power source: input power: 100~240V 50-60Hz, output power: 12V 3A  
Light frequency: 365nm and 405nm  
Warranty: 12 months
E-FILES

You can find two versions of the e-file in our range – portable and stationary. The portable e-file is equipped with a battery and a power saving system which provides 5 hours of constant work without the need for charging. The speed dial allows for a smooth regulation of the e-file speed. The digital display and the automatic safety system make sure that your work is comfortable. Thanks to the small size and weight you can take this file wherever you go.

Power: 24W, weight - 277g, size - 6 cm x 12.8 cm.

The stationary e-file is an indispensable device in any nail salon. Thanks to the small size and the sleek shape it doesn't take too much space on the table. Modern, minimalistic design and neutral white color help this device to blend into any salon interior. You can use the provided pedal to control the speed.

Power – 90W, weight 1234g, size 1,8 x 18,6 cm.

Both e-files are equipped with a high-speed head (from 0 to 30 000 rpm, a torque of 5.71 mNm). The very light handle provides a comfortable work but at the same time, it doesn’t vibrate even when with the maximum revolutions. The stability guarantees absolute precision, safety and comfort. The TWIST-LOCK mechanism allows changing the file bit with just one move. The 110-220 V / 50-60 Hz power protects the motor from overheating and prevents the bit from jamming. This high-quality device will serve you for many years. The e-files have the EU CE certificate and have a 24-month warranty.
E-FILE BITS

All e-file bits are high-quality and durable tools. The perfect execution provides comfort during work. They are easy to clean and resistant to disinfecting liquids. They can be used wet and dry.

Tip
Remember to choose the right bit for the task.

---

**e-file bits**

**INDIGO STYLE E-FILE BITS**

- Very sharp e-file bits
- For removing acrylic and gel
- Durable INFINITY LIFE coat
- Special double ridges make the removal a lot faster
- Can be used for removal of tough layers of the skin and calluses
- 2 shapes available: cylinder – no.1, rounded cone – no.2

Tip
Indigo Style E-File Bit no.1 in a shape of a cylinder is a universal bit, used also by left-handed (because of the groves on the file bit).

---

**e-file bits**

**INDIGO E-FILE BITS I-III**

- Spherical cylinder shape
- Made from cemented carbide
- Available in 3 different grits:
  - Red – the gentlest one, for removing gel polish even from natural nail plate.
    Favorite among stylists also known as “the rubber” because taking off gel polish is as easy as erasing pencil marks.
  - Blue – for removing gel polishes and gels.
  - Green – for hard gels and acrylics.
- Designed for taking off gel polish and color gel
- Rounded tip allows for precise removal of the product in the cuticle area without damaging the constructed nail
- Recommended for beginners
INDIGO CUTICLE E-FILE BITS

Precise files designed for the e-file manicure and cleaning the underside of enhanced nails. Perfect for working in the cuticle area.

---

**e-file bits**

**NO.1-4**
- Diamond e-file bits
- Shapes: 1 - tear, 2 - needle, 3 - narrow cylinder, 4 - wider cylinder

---

**e-file bits**

**NO.5**
- Made from cemented carbide
- For removing gel polish and gel
- For smoothing out the underside of the nail

---

**e-file bits**

**NO. 6-15**
- Very precise shape of the ball allows working near cuticles
- No.6 - made out of cemented carbide
- No 7 and 8 - diamond e-file bit
- No 9 - diamond e-file bit in a shape designed for removing and working on the cuticle area and proximal nail fold

---

**e-file bits**

**INDIGO CERAMIC E-FILE BIT NO.1**
- The only ceramic file bit offered by Indigo
- For removing dead skin near cuticle area
- Shaped perfectly
- Recommended for beginner Stylists
MANICURE SHEA INDIGO

It’s a manicure that strengthens the nails. Thanks to the properties of the natural shea butter, it affects with the strong regeneration to the nails, makes them more resistant to injuries, and protects them from breaking and splitting. What is more, it gets deep in the skin, moistening and nourishing it, also protecting it from the harmful effects of the atmospheric conditions and prolonging the aging processes.

Shea manicure step by step:
1. sanitize the Customer’s hands and nails. Evaluate on their condition,
2. clean the nail plate, push the cuticles with a disposable wooden stick or with the pusher
3. remove the cuticles using the Cuticle Remover and/or the nippers,
4. shorten and even the plate using the file of minimum 180 grades,
5. smooth the plate with the file of 240 grades,
6. apply the Indigo shea butter on the nail plate, 400 grades,
7. polish the shea butter in using the Diamond Shine file,
8. apply and polish the shea butter again (do not matte the nail plate this time)
9. massage the Customer’s hands using the Indigo shea butter, 4 000 grade
